Sales Management Comments

As the sale that is known as "the place to buy bred heifers", the reputation is strongly reinforced as you thumb through this year's version of Simmsational. This offering looks as strong as ever. It is impressive how the "bar is raised" continually by the consignors.

I was as impressed as ever going through the sale heifers at LaBatte Simmentals. Not only impressed because I thought they looked to be the best group ever, but so impressed that these were going to be "let go" after selling 200 bred females in the same year. This defines commitment!

The Mitch Fiolleau family of Green Spruce Simmentals have allowed us to come in and sort off the "cream" of their herd. They are looking to slow things down and run a commercial herd that would calve a bit later than their papered cattle did. We accessed the bred heifer pen as well as what we believed to be the best young "pairs". The service sire to these cows will also sell.

Hopefully you can join us for another great edition of Simmsational, the longest running sale in Canada. If you can't attend, please feel free to call our cell phones for any buyer assistance you may require.

See you in Moose Jaw,

Jay Good,
Transcon Livestock Corp.

Welcome to Simmsational 2013 at Johnstone Auction Mart, Moose Jaw, SK on Thursday, December 5th. Simmsational continues to be one of the longest running sales in Canada and has some of the best cattle and best people in the business consigning to it. The cattle industry is booming right now, with record calf prices and record dollars per head. The Simmental breed is going to play a big part in the future of the beef industry and now is the time to invest in some of these good Simmental females.

We are consigning ten top end bred heifers from the heart of our program. Five soggy, red heifers all bred to the \$75,000 Red Mountain 16Z bull that highlighted the Ashworth bull sale this spring and five deep, broody, black heifers bred to Poker Face and Cobra. They all have AI dates and no exposures. We truly believe this is an outstanding set of bred heifers.

So come and join us at Simmsational 2013 at Johnstone Auction Mart, Moose Jaw, SK on December 5th for some great hospitality, food, fun and excellent cattle.

Barry

P.S. Grandkids are growing like weeds. Can't believe Brodyn will be ten in November and the youngest of six, Sierra, is three already. We're so lucky having them live close to us.

17Z is a very attractive Hot Iron daughter out of a super IPU T-Bone female that was purchased from Tymarc Simmentals as an open heifer. Her mother is the famous full Fleck Anchor "T" Barbi cow that is owned by Virginia Ranches and 86U was an embryo calf of hers. 17Z's dam is cherry dark solid red, with an excellent udder and is very easy fleshing. We think Barbi is going to be a front pasture cow. She has the broodiness, style and that little Fleck influence. She's mated early to the \$75,000 Red Mountain bull as an added bonus.

Here's a really broody, moderate framed Revolution daughter that has cow written all over her. Her mother is a really good Red Tanker daughter that we purchased from Storebo Farms at the Simmsational 2008 sale. 34Z is setting up a great udder, is thick, soggy, broody and attractive and, again, is bred to Red Mountain, the IPU Red Western son that, along side his mother, was Supreme Champion over all breeds at Ag-Ex 2012.

This is one of the most powerful heifers we have ever offered for sale. Dark cherry red, long, deep, broody and goes back to a good Mercedes-Red Deck cow. Her sire, the IPU Redskin 105X bull, was one of our selling bulls in our 2011 bull sale, selling to Mandan Lake Ranch of Center, ND. They are members of the very successful Dakota Express bull sale group. We thought enough of this bull to collect a little semen on him before he left for the USA and we've been very impressed with the few progeny we have from him. 65Z is a true powerhouse, but still feminine, broody and angular. These are the kind that can raise the \$20,000 bull calves. I would be hoping for a bull calf. He could be very exciting.

A true sale feature. This heifer has always been one of our very favorites right from day one. She is mothered by one of our best cows, a Red Label daughter going back to a Bodybuilder cow. We didn't get many calves off the Hot Iron bull but the few we got are very, very good. 113Z is dark red, blaze faced, deep, broody and very nice fronted. This is a heifer with a lot of future ahead of her whether in the show ring or just as a great front pasture cow. She's a definite sale feature.

Here's another dark cherry red, Redskin daughter that is patterned very much like her 3/4 sister, IPU 65Z, lot 3. Her mother is a deep, broody, Mercedes daughter that we very much like. She has an excellent Horizon daughter in the keeper pen this year. 138Z is setting up a beautiful udder, is broody and has a great disposition. As an added bonus she too is bred to the Grand Champion 2012 Ag-Ex Simmental bull, Red Mountain 16Z.

This is one of the most powerful Stubby heifers we have ever seen. She is mothered by a beautiful, black blaze faced Hero daughter that has been in our flush program. Her grandmother was another super, black blaze cow that still had an absolutely perfect udder at age 14. This solid black, powerhouse, LFE BS Lewis 322U (Stubby) heifer is setting up a beautiful udder, is deep ribbed, long and attractive. Bred to the popular Drake Poker Face - what would a baldy bull be worth out of her?

These LFE BS Lewis 322U (Stubby) cattle are very good, so consistent in type and quality. They calve easy, have so much capacity and natural muscle. This heifer has always been one of our very, very favorites. So much power in a moderate frame. The depth, hip and natural muscle in this heifer is awesome. We think the early mating of Poker Face and 32Z could result in a very special calf whether a heifer or bull.

Bred AI April 12 to Drake Poker Face 2X BPG729546. No exposure.

This heifer is patterned the same way as her paternal sister, 32Z, lot 7. Lots of depth, natural muscle and neck extension and she is setting up a beautiful udder like her mother. She is a brood cow in the making. We bred all our Stubby heifers to the exciting, black blaze faced bull, Drake Poker Face 2X, and believe this cross is going to produce some exceptional offspring.

If you want a heifer that is thick and soggy, well, here she is. She's moderate and has all kinds of capacity and natural thickness. 104Z has always been one of our favorites. She's bred early to one of the rising young black bulls, NCB Cobra 57Y, who's doing a great job at Deeg Simmentals and Lewis Farms. 104Z's grandmother, Drake Tula 1R, the mother of Poker Face, is one of the best black Simmental cows we've ever seen and we can see some of her qualities passed onto Tula 104Z. A black baldy Cobra son could be very valuable.

Carrie has been one of our favorite heifers all summer. She is a big topped heifer with plenty of depth and style. She is very sound in her movements and has a great hair coat. And, yes, she is setting up a beautiful udder. The combination of Scout and 16X, a Red Force, first calf heifer from our Carrie cow family, really worked well. The Carrie family has been responsible for many of our top selling bulls over the last few years. 3Z's early mating to the new Red Mountain bull is very exciting.

Josie is not big in stature but she is a big topped, big bodied beef heifer. Josie will make a moderate framed cow with a great udder just like her mother. 67W was purchased from Erixon's at the National Sale in Brandon and then went on to Agribition where she was Junior Champion female. Josie is another good Scout daughter and is mated to the April bull X-T Red Turbo 26Z that we purchased this spring. We are very eager to see his calves next year. Josie is homo polled by parentage.

Bred April 6 to KWA FLYF Red Mountain 16Z PG766259. No exposure.
SVS Red Annie 46Z is a moderate framed, beefy female that is going to be a producer. A proven and maternal pedigree backs up this dark red female. 46Z is the first female to sell from the 211U cow family. She is mated early to Red Mountain, an exciting service for sure.

Bred April 26 to Harvie JDF Wallbanger 111X BPG727456. No exposure.

50Z is a real thick, moderate made, Buckeye heifer. She is very dark red and feminine. 50Z is also out of a two year old that we purchased from Lewis' Leading Ladies Sale. 202X did a very good job on her first try and has a good Open Range bull calf in the pen. 202X has a perfect udder with plenty of milk. From the looks of it, 50Z will be just like her dam. Bred early to Wallbanger will be very interesting. 50Z is homozygous polled by parentage.

Homozygous Polled. SVS Ashley 37A is a powerful, well balanced female that has been a favorite all along. She is deep sided, square hipped and has a ton of hair. Sired by our lead off bull in 2010 that was purchased by Maxwell Simmentals. Scout has bred incredibly well, siring thick made, mellow, hairy cattle that are the right kind. A full brother to 37A was a feature in our bull sale last spring and was purchased by Mappin Simmentals. Ashley 37A will be very easy to find sale day.

PT safe.

If you're looking for an easy keeping, big volumed, dark red heifer, 33Z fits the bill. She is sired by our 2009 high selling bull, Erixon Wellington 133W, going to Harvie Ranching and Deeg Simmentals and now residing at Week's Simmentals. His bull calves have pushed the scale down and been well received by commercial cattlemen. There could be a great one brewing in this tanky, solid made heifer.

Bred April 13 to IPU Diablo 41Y PG753020.

No exposure. PT safe.

She is made right, mellow centered, big hipped and carries a lot of capacity. She comes out of an excellent uddered Bar 15 cow who has fit very well into our program. She is bred to our \$25,000 homozygous polled herdsire, IPU Diablo 41Y. We searched long and hard to find a bull that would fit into our program. Diablo is very well rounded; he has the pedigree, a solid set of EPD's and, most importantly, the look.

Here is a female right off the top of our bred pen. So broody and thick, yet feminine and angular. She is backed by a great young Freedom daughter who not only produced this deep sided heifer on her first attempt, but then followed that up with a promising herdsire prospect for our bull pen this year. This heifer's tremendous set of EPDs just add to this appealing package. All signs point to this heifer having a very bright future ahead of her.

Sunshine is a female that should be staying on the farm. I said a few years ago I was not letting anymore of my Sonny females go and last year I talked myself out of putting her in the sale, but I just didn't get it done this year so here she is. A little larger frame with adequate muscling and femininity, she has unbelievable hair like all of the Sonny's do. Already setting up a nice udder, she should milk like her mother, who raised a \$1300 commercial steer calf this fall.

Bred March 21 to OLF Patriarch Z25 ASA2678306. Exposed to same
March 20 to June 20.

These Black Top females make very good mothers. They are docile and have nice udders. This one should be no different. Out of my old Mr Beef bull. Also bred to my import bull OLF Patriarch Z25 who is an outcross bloodline to most.

S and S Simmentals

35

\$1600.00

We run about 45 purebred cows in East Central Saskatchewan. Because of our land base and the fact that my wife and I both work out full time we rely on our cows to do things on their own. So with our small land base we can only maintain these numbers so if they have any issues they don't stay here long. We have on offer two breds that I'm sure will be trouble free to their new owners. Bred to our new bull OLF Patriarch Z25 a homo polled outcross bull from the US. Please call if you have any questions

Blossom is a pretty sweet heifer. Aside from her massive capacity she is as long as a train and has a ton of hair. She has been a standout since birth and a pleasure to watch grow. Even with her extra length she still moves freely and has a great disposition. She has a half-sister that will be selling at Agribition which just proves the maternal consistency in her pedigree. Blossom goes back to the great X-T Destiny 73K cow that is a powerful donor at 3D Simmentals. She has the potential to grow a solid herd around, and is a must see to appreciate what she has to offer. Both heifers we are selling can be viewed at Agribition as they are part of our show string this fall.

Bliss is a very unique heifer, since her pedigree is very outcross from a lot of operations. Structurally you can't get much more depth and muscle packed into a frame, yet she moves like she is walking on a cloud. I can't say enough about her mom, but in short she is one of the best cows on the farm. She has the nicest udder I have ever seen. I could feed her sticks all winter and she will still look like fat and milk like a dairy cow come spring. One of the reasons we are selling her is that we have three daughters already in our herd that are all knock outs. If you are looking for a heifer that pretty much has it all, then Bliss is the one you are looking for because they don't come like her every day.

Bred AI May 5 to TNT Top Gun R244 PG654937. No exposure.

Sired by Red Bull, this moderate framed heifer is very structurally
correct with good depth of body. Her dam, a Chuckwagon offspring,
is dark red with a good disposition.

No exposure.

Green Spruce Zulu is strong in her makeup, feminine and
long bodied. Her dam is a good uddered, good milking cow
that remains productive and was Grand Champion female in
2002 at Saskatoon Fall Fair.
