## Sales Management Comments

As Canada's longest running Simmental fall consignment sale we have been very proud to have been involved throughout its evolution. Things have changed incredibly over the years, mostly with different associations, clubs and groups that have been involved. One thing that has never changed is the solid reputation for quality that Simmsational is known for nationally and beyond.

Absolutely without exaggeration, the LaBatte Simmentals "mini-production" is always the opportune chance for outlying programs to advance themselves by acquisitioning a heifer from a source that has proven itself genetically, professionally and as committed as maybe the business has ever seen. The consistent "look" and "type" that proudly carry the "IPU" tattoo is really an amazing feat that continues to enhance not only the home-herd but the breed on a whole. Take notes here on how to be a registered cattle breeder.

We add a very nice feature to Simmsational with a second "mini" this year. It comes from the Boon family's Lazy Bar B outfit! I can vouch for the program in a big way that it is no-nonsense and as respected in the commercial sector as a source for bulls that has gathered a very loyal repeat customer base. They have been a mainstay and more-so, a leader, of the Advantage Bull Sales held each March in Saskatoon. Maybe this ranch has introduced the PFRA market to Simmental bulls as good as any. The likeable demeanor and logical aspect that is taken to breeding Simmental cattle has begun to pay dividends and rightly so. This set of bred heifers all carry service to a proven calving ease bull that does more than just sire live calves. His one daughter, the solo heifer calf consigned, attests to this!

We have bulls once again consigned as a necessary avenue to facilitate some of the consignors who wish to showcase this side of the herd. Historically, fall consignment sales, including Simmsational, had top bull calves on offer for the producer, registered or commercial, that are savvy enough to seize the opportunity to get a head-start on their bull shopping.

I think the ability to raise quality bulls is a good topic to build off of here. Just look at the list of long-time to recent consignors and see the correlation to some of the most reputable bull sales not only in Saskatchewan but Canada-wide! It is these type of females that they offer here that produce their success on the bull-front. The fortunate side is they have enough herd depth to release these females to enhance other producers marketing prowess.

We hope to see you in this very central prairie location, only 45 minutes from the Regina Airport. The trip is always worth it, driving or flying in! If you aren't able to attend personally, as most of you are aware, you may call on us to assist your absentee buying needs. Our cell phones are listed.

See you at Moose Jaw,

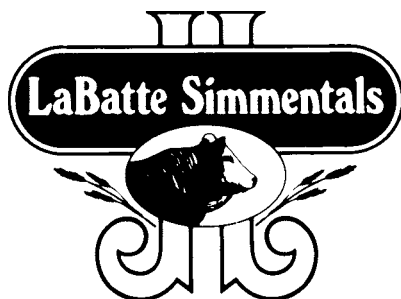

**Jay Good**

Welcome to Simmsational 2014 at Johnstone Auction Mart, Moose Jaw, SK. on Thursday, December 11th. This is the 37th consecutive sale and we have consigned to all of them. Wow! How time flies. This is an exciting time in the cattle business as it was when we held our first Simmsational Sale in 1977. In 2014 we are seeing record prices for cows, bulls and calves. A few years ago I predicted we would see \$.90/lb cows and \$2.00/lb calves in the near future. Well it finally arrived and now we're seeing \$1.30/lb cows, \$1.50/lb bulls and \$2.80/lb calves. I congratulate all the commercial cattle people who hung on in lean times and are now reaping the rewards. The cattle industry looks like it's in for many good years as the cattle numbers are still low in Canada and the U.S.

We are again consigning ten bred heifers from the heart of our program. Six soggy, broody, red heifers, including two baldies. They are all bred to the \$40,000 homo polled Kuntz Sheriff 8A bull that was purchased by Bonchuk Farms and Semex. LaBatte Simmentals was the contending bidder on Sheriff. We were fortunate enough to purchase two of the three semen packages that were offered for the 2014 breeding season. The four black heifers in the sale are featured by the two outstanding Liner 56U daughters, a soggy, broody, Stubby heifer and a showy Tula 1R daughter. These heifers are all A.I bred and have no exposures.

So come and join us at Johnstone Auction Mart on December 11th for some good hospitality, food, fun and great cattle and people. From all of us at LaBatte Simmentals we wish you a very Merry Christmas and a Happy New Year.

Barry

P.S. The grandkids are growing like weeds, all in school or play school now. The girls are in dance and karate, the boys are busy with hockey for the winter and I think might have one joining the 4-H Beef Club!

Kuntz Sheriff 8A

We are starting off our sale offering with an awesome Lotto heifer. She is deep bodied, thick, as broody as they come, very nice fronted, is setting up a beautiful udder and is mated to the \$40,000 Kuntz Sheriff bull. She is solid red and is out of two black parents which would make her a non diluter. We think this heifer is going to be a front pasture cow. She has the broodiness, style and power to raise those top bulls and females.

This spring we saw the popularity of the Horizon bulls at our 2014 Spring Bull Sale with sixteen Horizon sons averaging \$12,860. We have never used a bull that is so consistent in muscle, thickness, looseness and style. And now his heifers – deep, broody, easy fleshing and stylish. 71A did not want to cooperate on picture day but she is an outstanding cherry dark red, blaze face female that is setting up a beautiful udder, has a great hair coat, is very broody and is, again, bred early to Kuntz Sheriff.

Here is a super, loose made, deep, broody Chakota 18Y daughter out of a really good Red Chief cow. You have heard us say many times that the Red Chief females are the best females as a sire group that we have ever had and till this day still are. As you see in our red offering four of the six heifers are out of Red Chief daughters and the fifth, a Red Chief granddaughter. This red blaze face, 18Y daughter has brood cow written all over her. With Liner 56U, Red Chief and Houston in her pedigree you have some of the greatest cow maker sires in the Simmental industry. We think this heifer has a bright, bright future ahead of her.

IPU Red Chakota 18Y

Well, we could write a book on the mother of 174A, the Pocahontas 68M cow, full sister to the famous Pocahontas 52N female. 68M is still producing strong, she is coming 13 years old and her udder is still picture perfect. She is getting set up to flush again in mid December. We have five outstanding daughters working in our herd and Meadow Acres Farms has three, including the \$16,500 177Y, a full sister to 174A. Downey Farms also has a full brother to 174A, purchased at our 2014 Spring Bull Sale, as their new junior herdsire. We sold two full brother transplant sons of 68M, sired by Horizon, also in the 2014 Bull Sale, averaging \$16,500. 68M is also the grandmother of IPU Diablo 41Y, a ¾ brother to 174A who sold to Erixon Simmentals for \$25,000 in our 2012 Bull Sale. Enough about 68M, 174A, in her own right, is a tremendous female, deep, angular, feminine and is setting up an absolutely beautiful udder. Bred to Kuntz Sheriff 8A. We think there is a lot of opportunity in the resulting calf.

This is the first IPU Code Red 53Y bred heifer we have ever offered for sale and she is a good one. Her mother is a Red Chief granddaughter with some Fleck influence. Her sire, Code Red, is a cherry, cherry dark red Crosby son that is powerful, massive and thick. He is a performance bull that we decided to keep from our 2011 calf crop and we haven't been disappointed. This March, 53Y daughter is powerful, deep, has a great hair coat and is setting up a beautiful udder.

This is a powerful Horizon heifer that is one of my personal favorites. Again, out of a really good old Red Chief cow, this heifer is so broody, deep, pear shaped and has an attractive, feminine front end. We think the world of this heifer that has been mated early April to the homo polled, outcross Kuntz Sheriff bull. We think that this powerful heifer will be heard of down the road. She's a definite sale feature.

This is one of our feature black heifers. Sired by Springcreek Liner 56U and out of a great, solid black Gunner dam. The 56U's are making tremendous young cows, they have excellent udders, calve well and breed back. We think they are going to be like the Red Chief - produce. The 15A heifer is moderate, soggy, thick, very broody and has excellent feet and legs. She's bred early to the calving ease specialist, WFL Absolute, that Rancier Farms have used so successfully in their program.

A special heifer, an own granddaughter of the Pocahontas 52N cow. She's solid black, deep, thick, powerful, has really nice neck extension and has a beautiful head with those floppy Simmental ears. Mated to Poker Face, the black baldy, Tula 1R son. The resulting calf should be outstanding. We have used this mating very successfully in our herd. This heifer also has a great disposition! Just a powerful sale feature, black, bred heifer.

**Bred to WFL Absolute 51Y BPG754744 April 9. No exposure.**

Another one of those really good Liner 56U daughters out of a good Black Stetson daughter now residing at Meadow Acres Farms. We sold a full sister to 43A in the 2011 Simmsational Sale to McIntosh Livestock at Maymont, SK and she has gone on and really produced for them. At last year's Agribition Sale her Cobra daughter was one of the high sellers in the sale, selling to Mader Ranches. Blair and Stephanie have entered the 242X Liner cow into their flush program. 43A is a very feminine, smooth, broody female that is setting up a really nice udder. She too is bred to WFL Absolute 51Y.

**\$11,500.00**

**Bred to Kuntz Sheriff 8A PG794268 April 13. No exposure.**

An own daughter of Drake Tula 1R, the dam of Poker Face. 1R is one of the most complete cows we have ever seen. Sired by Temptation, she is deep, thick, structurally correct and has a good udder. We had the opportunity to share in a flush of this great cow and 164A is one of the resulting calves. Tula 164A is really feminine, super fronted, angular, has a great hair coat and is setting up a beautiful udder. She'll be one of the few black heifers this sale season to be bred to Kuntz Sheriff 8A. What would a black bull or heifer calf be worth out of Sheriff and grandmothered by Tula 1R.

Drake Tula 1R

Welcome to Simmsational! 2014 marks the 20th year we have been getting ready for this sale weekend and this is the strongest group yet. I think this group of bred heifers and the heifer calf we have brought are a true representation of our cow herd and the direction we are heading. The "Black Crosby" bull is doing a great job for us and we are excited to offer his service on all the sale heifers. I have kept two and brought you eight breds for your approval as well as an outstanding calf. Now is the time to add these top end females to your program. All the heifers were exposed April 1 – June 3 to KOP Crosbyson 3Z with some observed breedings. The heifers are all preg checked safe to the above exposure.

**HOMO POLLED AND HOMO BLACK.** Wide Open is a name that best describes this powerhouse. He has been a standout since birth, and it has been exciting to watch him grow into what he is today. Wide Open is backed by one of the best cow families on the farm, and I invite anyone to come find a flaw in his dam or grand dam. His mamma is one of the most powerful cows we own, but still has a lot of femininity in her look. She has not lost a pound all year, but still walks like she's floating on air. As for Wide Open he has a very long stride and carries himself quite well. When standing behind him you can really appreciate his width as it stretches all the way to his shoulders. He has great testicular development for such a young age. We truly believe this bull will be a breed influencer with the combined maternal power, along with the explosive muscle, and the bulletproof temperament. We are so confident we would like to reserve 100 straws for in herd use. The sky's the limit for this future herd sire so don't be left behind.

*Hilltop Holdings*

Hilltop Holdings came about a little over a year ago, after a phone conversation between Gary and Kim and Darcy. This phone call resulted in us partnering on 21 black and red Simmental cows to calve in 2014. Females were purchased from LaBatte, Spring Creek and Sunny Valley with plans to further build from this base. These cows are run at the Anwender Ranch alongside their well known and established purebred Shorthorn herd near Radville, SK. You'll notice a lot of Spring Creek breeding on the bottom side of our pedigrees as we focused on buying some good young cows from Brian to start our herd. This young red bull is the result of one of those purchases. To our knowledge, this will be the first bull calf off of the famous Captain Morgan sire to sell at public auction and we think he is a good one! He has some great cow families on both sides of his pedigree with Pepsi and Black Jenna on the top side and being out of a good, young Spring Creek cow that is a direct daughter of Brian's high selling red cow from his 2013 female sale. This bull's dam has done a tremendous job raising this guy. He's an extremely long spined, good topped bull that has shown good performance with an actual weaning weight of 895 lbs on August 27, after starting out with an 86 lb birth weight. Wrap that performance up in an eye-appealing, deep, dark, red hair coat with a really easy going disposition and we have a calf that we are proud to sell as our first ever consignment to this prestigious sale. HTH 100 Proof 2B is also homozygous polled by parentage. We will have non-diluter test results by sale day. We will be retaining 100 doses of semen for in-herd use only.

Bubba is a soggy, soft middled, thick haired beef machine. Although he has a little larger birth weight, he will still have calving ease from Stubby. Born quickly on a cold day he was up and nursing in minutes. His muscle shape and thickness will make him an asset in a commercial herd for producing market calves, but his easy doing ability and quiet temperament, backed by his hard working, heavy milking mother will make his females his best asset. His dam has caught to her first AI service every time even when nursing a set of twins. Bubba will be shown at Agribition, so stop by and look him up. Bubba is black although he doesn't appear to be so in this picture because the exposure is a little off. Go to my Facebook page Coulee Crossing Cattle Company to see a picture of his actual color.

Pepper is a soft middle, moderate framed, sweet dispositioned heifer. She goes back to the 38R cow who has had several offspring go through this sale, including two this year. I have used Red Iron for a couple of years now and really like his calving ease as well as the body depth and consistent growth he seems to throw in his calves. Just look at the bred heifer in this sale, SLJ 12A who is a 3/4 sister to this heifer calf. Cycling regularly since October.

Exposed April 25 to August 1 to Erixon Lad 43Z BPG772869.

Cayenne is a big middled, deep bodied heifer with a quiet disposition. She is clean fronted and easy keeping, coming off grass in near sale condition. She's one quarter Fleckvieh as she goes back to Sanmar Polled Pharao 12P on the bottom side, as well as the 38R cow. The easy keeping ability that the 38R cow throws into her offspring is as amazing as it is consistent, no matter what sire she is bred to. I debated for a long time if I should offer this heifer for sale. She is bred to the old master when it comes to calving ease, STF Jalapeno, as well as going back to Shear Force and Polled Pharao. Her calf, if it is a bull, could be the next big thing in the industry for red calving ease sires.

Preg checked safe Sept 11. Exposed April 25 to August 1 to Erixon Lad 43Z BPG772869.

Doll is a tank of a heifer, deep sided, big middled, moderate framed, super haired and nice dispositioned. Out of Upgrade and going back to Full Figures on the bottom side, she will make a cow. She is only the second heifer her mother has given me. If not for the fact my heifer pen and cow herd are getting heavy on the black side, she would definitely not be for sale. In fact, I told Darren Paget when he was here last year that he couldn't have her for the sale, and that I wanted to keep her. Funny how things can change.

Observed bred May 14 to Erixon Lad 43Z BPG772869 and exposed to same from April 25 to August 1. Preg checked safe Sept 11 to the observed date.

36A is moderate made and smooth in her make up. Not extreme in any way, she reminds me a lot of her mother who came out of this sale two years ago from Swan Lake Farms. Middle of the road, her mother has one of the top indexing bull calves in the pen this year by Erixon Lad 43Z. Bought because he was a Stubby son, he has impressed with the quality of his first calf crop this year. Being hetero black was an added bonus, and either color the calves are equally as good. His first calf born, Apricot 56B, will be shown at Agribition, so come check her out to see the kind of calves he will throw.

Bred April 12 to Erixon Lad 43Z BPG722869 and exposed to same from April 5 to July 27. PT safe to Apr 12 breeding.

49A is a little larger framed than my other heifers, but she will moderate as she matures into a deep bodied, good uddered, good milking cow. Going back to the 41L cow who had several progeny go through this sale, she is related to the 31A heifer also in this sale, and you can see what kind of females you will get by breeding for a more moderate frame. An outcross pedigree to most of the popular bulls she will produce a quality calf without costing a lot. Blizzard 6U threw incredible muscle shape and performance into his calves. Used for four years in the commercial herd, this will be his only calf crop of purebreds. Similar in body type and make up to the mother of my show heifer, 56B. Stop by Agribition to see the kind of calf she will produce bred to Erixon Lad 43Z.

This is Jane's first purebred animal to sell and what a start it is. This heifer is as powerful as you will find anywhere which she comes by honestly being out of a huge producing Gunner cow Jay purchased on order for Jane out of the Black Diamond dispersal. A full sister to JAL 2B was also the high selling heifer calf at the Black Diamond dispersal.

*Boundary Ranch*

*Boundary Storm 70X*

Storm 83B is the easiest fleshing heifer we have raised. Super deep bodied, wide, with a massive hip and lots of hair, Storm is going to be one powerful cow, just like her momma. Her Dam is beautiful; wedge shaped, deep and wide, with tons of milk and great hair. All of her calves have been shown and she had the highest indexing calf the last two years and second highest as a two year old. Her Full Throttle son currently walks our pastures and created a lot of interest last fall, headlining our show string. Her Odin son was Champion Bull Calf at the SCPS and the high selling black bull at the 2013 SWS bull sale, going to Workman Brothers. 70X's maternal sister had the high selling black bull in 2012 going to Deegs. Storm 83B is built to produce and is sure to become a great matriarch in someone's herd. NON DILUTOR/HOMO POLLED.

When Jay came around in the summer this was his pick. She is stout with loads of back end, and to top it off she has that all desired blaze. She will be a tough one to see leave, but will do wonders for her new owners. She has a great temperament, and has grown into herself quite well. Her dam is a Muirhead Livewire that we bought out of the Kopp's bull sale a few years back. She is a heavy milking, easy fleshing cow. Dazzle's sire is the great Wheatland 738T. He has stamped his mark in our herd, and all his calves are very uniform in quality.

You could pretty much write a novel on Pearl's dam. She has been so instrumental in our herd, and she has not had a calf that isn't a standout. Pearl has the length of spine and muscle along with a ton of hair. Her maternal sister was the high selling open heifer in last year's Simmsational going to Barry LaBatte, and this heifer has everything that that one possessed. Her sire, Wheatland 738T, is one of the most sound bulls I have ever seen. He has enormous feet and some explosive muscle. She won't be hard to find sale day.

## *Terms & Conditions*

**TERMS** - The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

**BID** - Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**SALES TAXES** - Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

**DISPUTES** - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

**INFORMATION SUPPLIED** - The information contained in this catalog is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Jamesway Enterprises Ltd. assume any responsibility if the information supplied is not accurate.

**CATTLE PICTURES** - The images in this catalog are believed to be accurate representations of the individual animals. Transcon Livestock Corp. and Jamesway Enterprises Ltd. assume no responsibility if the images as received have been altered.

**ANNOUNCEMENTS** from the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**SHIPPING** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

**BREEDERS GUARANTEE** - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

**HEALTH** - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors. or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**TRANSCON LIVESTOCK CORP. IS AGENT ONLY** - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller.

The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
